

Barilla Solar

CERTIFICATE

Solar Thermal Guarantee

Barilla Solar Collectors	15 years
Barilla Pump Stations and Controllers	3 years
Storage Tanks	Manufacturer's warranty

The guarantee includes:

- **Solar collectors** : Faults that inhibit the performance of the collector significantly or endanger the stability of the unit
- **Solar storage tanks**: Faults in the tank materials resulting from the production process.

The guarantee period begins from date of invoice.

Any guarantee claims will be assessed upon return to base of the goods and will either be replaced or repaired once inspected.

Labour and transport costs of returning the goods are not covered under this guarantee.

Guarantee claims must be notified immediately with an exact description of the fault/failure so that an accurate assessment can be made prior to the return of the goods.

The guarantee requires that:

- Neither glass breakage or frost damage (resulting from insufficient anti-freeze protection) have caused the damage
- The installation has not been exposed to aggressive media
- Pump damage has not resulted from over-heating
- The deficiency has not been caused by a third party or a force majeure
